TO THE AMERICAN WORLD. "THE Inhabitants of this Continent have now an easy and advantageous Opportunity of effectually encouraging literary Manufactures in the British Colonies, at moderate Prices, calculated for this Meridian, the Establishment of which will absolutely and eventually produce mental Improvement, and commercial Expansion, with the additional Recommendation of positively saving Thousands of Pounds to and among the Inhabitants of the British Empire in America. Thus, the Importation of One Thousand Sets of Blackstone's Commentaries, manufactured in Europe, at Ten Pounds per Set, is sending very near Ten Thousand Pounds across the great Atlantic Ocean. Whereas, One Thousand Sets, manufactured in America, and sold at the small Price of Three Pounds per Set, is an actual saving of Seven Thousand Pounds to the Purchaser, and the identical Three Thousand Pounds which is laid out for our own Manufactures, is still retained in the Country, being distributed among Manufacturers and Traders, whose Residence upon the Continent, of Course causes the Money to circulate from Neighbour to Neighbour; and by this Circulation in America, there is a great Probability of its revolving in the very Hands from which it originally migrated.

"American Gentlemen or Ladies who, at this juncture, retain any Degree of that ancient and noble, but now almost extinguished Affection, denominated Patriotism, and are now pleased to exemplify it by extending with Celerity and Alacrity their auspicious Patronage through the cheap Mode of reposing their Names and Residences (no Money expected until the Delivery of an Equivalent) with any Printer or Book-seller on the Continent, as intentional Purchasers of any of the literary Works now in Contemplation to be Re-printed by Subscription in America, will render an essential Service to the Community, by encouraging native Manufactures, and therefore deserves to be had in grateful Remembrance by their Country, by Posterity, and by their much obliged humble Servant, the Publisher.

ROBERT BELL."

PETERSBURGH, JULY 11.

A party of French, consisting of 250 men, 50 officers, and 700 Turkish soldiers, having themselves obliged to surrender at discretion, demanded to be carried by sea to Warran, on condition not to bear arms during the war against the Russians. There were found in the fortress 74 pieces of brass cannon, 56 of iron, 15 pistoles, and ten mortars. Our whole loss consists in 25 men killed, 215 wounded, besides 6 missing. That of the enemy amounts to 1000 men, 1000 killed or wounded, besides 25 taken prisoners.

On the 6th, August 6. Prince Gallitzin, having Extraordinary from the Emperor of Russia to their High Highnesses, both just received the following account from Petersburg, dated the 16th day of July.

Before Prince Dolgorouchi forced the River of Pripet, he had detached Prince Goltzsch to take possession of Anabur, in marching by Genishk and the neck of land on the side of the sea of Anabur, and after the taking of Pripet, he sent Major General Braun with another detachment to make himself master of Kishio; but the Turkish garrison did not wait his arrival, but, demolishing the fortifications, embarked on board some vessels which were there, in order to retreat into their own country, so that General Braun took possession of the place without firing a shot. The garrison of Anabur, however, consisting of between 700 and 800 men, held firm; but Prince Goltzsch, attacking the fortress, carried it by assault, and the greater part of them were then destroyed or made prisoners. In the mean time Prince Dolgorouchi marched to within thirty-four wersts of Caffa, where he waits the coming in of the whole Turkish nation to make their submission, and expects to push his expedition into the Crimea in a fortnight or three weeks at farthest.

CONSTANTINOPLE, July 7. We have just received very melancholy advices from Syria. Ali Bey has published a manifesto there, in which he fills himself the Sultan of Egypt, Successor of the Pharaohs, and Deliverer of the Promised Land, and likewise of Mecca, which is the Holy Land of the Mussulmen. The Bashaws of Damascus, Tripoli, Aleppo, Kishio, and the Seraphier d'Ufa, assembled their forces to oppose that usurper, who after an obstinate and bloody engagement, gained a complete victory over them the beginning of last month, and entered the city. In triumph into Damascus, the inhabitants of which shut their gates against part of the conquered army which would have taken refuge in that city; where there was a result, which cost the lives of upwards of 3000 persons, the houses were plundered, and the very mosques profaned. Though the Bashaw of Aleppo is got back to his residence, it is apprehended that city will have the same fate as Damascus, and fall into the hands of Ali Bey, whose army consists of 60,000 men, and is besides well provided with artillery and every thing necessary to carry on a war with vigour.

PETERSBURGH, July 19. Major General Tcherkassoff came before Anabur the 15th of June. The following night the said town was stormed, and plundered before day-break. Our light troops likewise routed 1200 men, most part Tartars, who were come from Caffa, and lay behind a rampartment. In the fortress were found 300 dead bodies, among which was the Commandant, an Aga of the Janissaries; and 400 Turks were killed in their flight. Our whole loss consists only of 12 killed, and 45 wounded. We took 50 pieces of cannon, a large quantity of provisions, and all the baggage of the Tartars who were behind the rampartment, with six pairs of colours. We took 20 Turks prisoners at Kishio, and three pieces of cannon; that even war in a shocking condition, the Tartars having plundered it three days before our troops came there.

DANZIG, July 27. The line of Prussian troops has demanded and in part raised, for the third time, a contribution from the territories of this city, which has reduced many of the country people to great misery. They write from Thorn, that it had been signified on the part of the King of Prussia to the Magistrates of that place, to order the Burgers of Thorn to send to Konigsberg the corn they used to send to Danzig; but that as they did not comply with this demand, his Prussian Majesty had sent them such menaces, that the inhabitants of Thorn were under great uneasiness. There appears to be more discontent in Poland than ever, for most of the grandees are retiring into other countries. Among others, the Prince Primat has hired an Hotel at Elbing.

ANCONA, July 17. The conquest of Corsica is said to have cost the French 30,000 men, and 19,070,000 livres. Since Paul left the island, it has cost them annually near 4,000,000 of livres; and its revenue, exclusive of the wood it yields for shipping, amounts to but 1,000,000 livres.

VENICE, July 12. The deceased Spanish Minister, Count of Monteleone, died worth an amazing sum of money, viz. one million of ducats at Naples; 700,000 ducats in our specie; the same sum at Genoa; 600,000 ducats in England, and half a million at Amsterdam; his costly gold table service will be melted down and made into money. Besides a daughter in America, he has several natural children, who by his will are all to be legitimated.

LISBON, July 9. They write from Rome, that the Sieur d'Alameda, Minister from this Court, had produced an order from his Most Faithful Majesty, by which he declared that though he had sufficient proofs against the Chevalier Verney, Secretary to the Embassy of Portugal, to cause him to be beheaded, his Majesty, out of his Royal clemency, was satisfied with removing him from his post, and banishing him from his dominions, as well as from the palaces of his Ministers residing at foreign Courts. Accordingly he immediately quitted the palace of his Excellency Mr. d'Alameda, but was arrested by order of the Pope, and banished likewise out of the Ecclesiastical State. He was ordered where he would retire to, and desiring to go into Tuscany, the officers conducted him thither. It is the general opinion that Mr. Verney has been detained in keeping a correspondence with the Jesuits.

WARSAW, July 31. We this moment learn that the Russians, under General Hauer, have retaken Glinow from the Turks, and that a great number of the latter were made prisoners and conducted to Chocim. The same express brings advice that the Count de Romanow had given orders for throwing bridges over the Danube, for the passage of the Russian army.

HAAGA, August 9. If the letters from Vienna are to be depended upon, a congress is to be held at Temiswar, in order to bring about an accommodation between the Russians and the Turks. The ministers intended to be employed upon this occasion in behalf of the former are, Messrs. d'Obreffow, and Lebaschew, heretofore ministers from the court of Russia at Constantinople, who were confined in the Castle of Seven Towers, upon the breaking out of the war, and were set at liberty not long since; and on the part of the court of Vienna Count Stremberg, who is said to be already set out. These letters add, that the report of some rumours being to be sent to take possession of Belgrade in the name of the Empress-Queen is confirmed. They also say, that the baggage and equipages of the Baron de Bratodil, which, upon his nomination by the King of France to the Embassy at Vienna, were sent thither before him, have been publicly sold there.

They write from Berlin, that the King of Prussia was to set out this day for Silesia to review his troops, and afterwards to have an interview with the Emperor at Konigsberg on the present posture of affairs.

COBLENZ, July 23. The Ruess had so happy a delivery that she was able to walk through her apartments on the third day, and to take the air in the garden after the birth.

PARIS, July 13. Letters from Russia, of the 5th instant, advise, that the return of Count de Scharnowski, who is gone to visit the fortress of the island, is daily expected; that the Count will soon return to France, with some of his officers; and that he will be followed by another General. In the mean time, he has given orders to hasten the fortifications, especially at Corte, the walls of which are raised, and a fortress building, which will be garrisoned by 500 men, and furnished with provisions for three years. The town of Ajaccio is surrounded with a wall on the land side. The French cavalry continue to press there to the Russian fleet, which will then come to them, but cannot follow any of them.

HAAGA, August 15. The last letters from Constantinople say, that the Captain Pacha was preparing to sail from the Dardanelles with six ships of the line, twenty frigates, and other small vessels, with design to go in search of the Russian fleet. The final rejection of the Count of Stremberg was not yet arrived at the Porte.

LONDON, JULY 13.

Translation of a Letter from Paris.

"Within these two hours I have received the copy of our great loss in the late bloody engagement in Corsica. Martius acted in the late unhappy action like a prudent, cautious, and consummate officer. Yet the national situation of the country, the deep ravines between Calvi and La Pagnana, made it impossible for the brave and best disciplined troops to resist the barbarous ferocity of the natives; therefore the French failed in the attack, but made their retreat in good order. No human wisdom could prevent the enemy taking the baggage and military chest at Flumitro; for they defended the side of a vast mountain, that seemed inaccessible, with such a multitude, that they resembled a rapid torrent after a thunder storm, rushing over every obstacle with a furious impetuosity. The following is the return of the killed and wounded.

"Regiment Dauphine, officers killed 7, wounded 16; rank and file, killed 20, wounded 261. Regiment Berry, officers killed 11, wounded 25; rank and file, killed 71, wounded 149. Regiment Alsace, three battalions, officers killed 11, wounded 50; rank and file, killed 179, wounded 206. Royal Roussillon, officers killed 5, wounded 11; rank and file, killed 56, wounded 185. Regiment Bourgoigne, officers killed 13, wounded 29; rank and file, killed 42, wounded 79. Regiment Royal Italien, officers killed 3, wounded 7; rank and file, killed 9, wounded 43. Regiment Castella, officers killed 6, wounded 19; rank and file, killed 31, wounded 129. Regiment Bolkeley, officers killed 9, wounded 17; rank and file, killed 47, wounded 109. Cavalry, officers killed 11, wounded 21; rank and file, killed 41, wounded 75. Seven battalions were left in garrison. The numbers missing since the general attack are not included, nor those taken prisoners in the surprise of the baggage, who we fear, have not experienced much politeness from the savages."

AUGUST 16.

Translation of a Letter from Lyons, dated July 19, to an Italian Merchant in London.

"Yesterday landed here, from three Sardinian feluccas, a deputation from the free Corsicans, of seven persons, with their attendants and baggage, who set out at sun-rise this morning for Florence, and are immediately to proceed for Vienna, with proposals to the Emperor to guaranty their treaty with the Grand Duke, whom they are ready immediately to declare King, and Hereditary Sovereign of all Corsica, with an annual tribute of eight hundred thousand sequins, to be levied and collected in whatever manner the General Assembly of the deputies of the different pieves shall think proper. The Corsicans engage to support a constant body of regular troops, of six thousand men, to be annually recruited from their militia, which is to consist of the male inhabitants of the whole kingdom from the age of twenty to forty years, to be supplied with arms and ammunition at the expense of each pieve; that their Sovereign the Grand Duke shall maintain in Corsica, nine battalions of infantry, three troops of Hussars, a corps of artillery of three hundred and fifty men, with three trains of light Artillery; and that this military force shall be landed in Corsica within four months after the signing the treaty, which is acceded to even by all the Corsicans, now exposed to the barbarity of the French troops, of whom they are positive they have destroyed seven thousand within the last nine months. Many they have destroyed by poisoning the wells and reverts that supply their garrisons, their marksmen constantly kill the French officers; their hories are always hamstringing during the night, when they are at grass; the hay ground is regularly burnt up by their countrymen; their bridges of communication are no sooner finished than blown up; their new roads are immediately rendered impassable by a small kind of mine, called a fougasse, in which work the Corsican peasants are very expert; for twenty of them can, in one night, destroy what has employed a French battalion six weeks with infinite labour. They now declare, from the late examples of French courage in their glorious victory over the French army, they have not the least dread of one hundred French battalions. Nothing but the savage barbarity of the French in stabbing the Corsican children, ravishing and then hanging their women, putting their countrymen to the torture, and butchering them on the rack, marks of inhumanity unknown and unexperienced in any age, are, they trust, a sufficient apology with mankind for using some retaliation upon the unprovoked butchers of their infants, their parents, their wives, and themselves; will make them innocent of any accusation of being an unjust enemy, and sufficiently excuse their manner of self defence."

AUGUST 22. Yesterday there was a board of Admiralty, at which the Earl of Sandwich presided, and some fresh instructions were sent to the Commissioners of the different dock-yards.

Yesterday morning some important dispatches arrived in town, from his Excellency Charles O'Hara, Esq; Governor of Senegambia, brought by the Juno, Captain Dawson, which were carried to his Majesty at St. James's.

Tuesday night an express arrived from Paris at the French Ambassador's in Great-George-street, and it is said that it brings the final determination of the French Court, relative to the dispute which happened some time ago at a house in Crown Court, Westminster, between the Ambassador's servants and the constable and watchmen.

It is asserted, that great diffention prevails among some great men in Administration, relative to the proceedings of our Court against the enemies of Great-Britain; one party are for spiritedly resisting, while the other are rather for palliatives.

The Lord Chancellor has been again sent for, and will certainly be in town on Saturday next. The Duke of Richmond has also been sent to, and likewise Lord Shelburne, who is now in France.

It is said if the Lord Chancellor should resign, he will be offered a pension of 3000l. per annum, as likewise the reversion of the Bankrupt Office for his sons, who have already the reversion of the office of Clerk of the Crown.

Among the changes expected in the higher departments of the law, it is looked upon as certain, that Sir Fletcher Norton will be promoted to a very important office.

The Leaders of the Opposition have had several conferences, within these few days, on the subject of a new mode of proceeding for redress of grievances.

The last accounts from Petersburg are, that the Empress has lately declared, that notwithstanding the progress of her arms, she is very ready to listen to just and reasonable terms of accommodation.

It is said that a new plan of operations for the future government of the American provinces has, within these few days been presented to his Majesty at Richmond, by a distinguished nobleman now in the administration.

Letters from Holland, by Tuesday's mail, say, that there are great discontents there amongst the people on account of a treaty lately entered into with the King of Prussia; by which the Dutch are obliged to raise a certain number of troops for that Monarch's service whenever called upon to do so, and to be at the expense of cloathing and paying them during the campaign.

Two regiments of Infantry, now lying at Chatham, are shortly to march for Plymouth, where they are to embark for New-York.

It is said that there will be an opposition at Bridgnorth, and Mr. Sheriff Bull is talked of as a Candidate.

ST. JAMES'S, August 17. The King has been pleased to appoint Sir Charles Hardy, Knt. to be Master of his Majesty's hospital at Greenwich in the county of Kent, and also one of the Commissioners or Governors thereof.

His Majesty has been pleased to grant unto Sir George Brydges Rodney, Bart. the office or place of Rear-Admiral of Great-Britain, and of the Admiralty thereof, and of Rear-Admiral of the Navies and Seas of Great-Britain.

BOSTON, SEPTEMBER 19.

IN Captain Symmes, from London, came Passengers, Captain Thomas Simpson, of the Royal Artillery, with his Family; and Mrs. Campbell, Wife of Captain Campbell of the 29th Regiment.

By a Gentleman lately arrived from England, we learn, that Sir Francis Bernard walks the Streets of London, as unnoticed by Gentlemen there as the very Poets, and that even Lord Hillsborough is ashamed of him.—As the Tools of Power become useless, they are despised by their scandalous Employers.

In Captain Scott, from London, came Passengers, Francis Waldo, Esq; Collector of his Majesty's Customs at Falmouth; and Mr. Joseph Wheelwright of this Town, Merchant.

SEPTEMBER 25. On Thursday Morning came on for Trial before the Superior Court of Worcester, the Action of Trespass brought by Ebenezer Cutler of Oxford, Plaintiff, against Robert Pierpont and Caleb Davis, Defendants.—The Damages he demanded were 3000l. lawful Money. We hear the Cause was closed by Mr. Josiah Quincy for the Defendants, and by the Attorney-General for the Plaintiff, the Day following; when the Cause was committed to the Jury, who agreed in about eight Hours, and brought in their Verdict on Saturday in Favour of both the Defendants.

On Wednesday last a Convention of the Episcopal Clergy was held in this Town, when a Sermon was preached at King's Chapel on the Occasion by the Rev. Mr. Bad, of Newbury.

Yesterday being the Anniversary of his Majesty's Coronation, the same is observed here this Day, by firing the Cannon at the Batteries, &c. and other usual Demonstrations of Loyalty and Joy. The Admiral's Ship is beautifully ornamented with Flags and Colours of the different maritime Nations.

Extra of a Letter from a Gentleman in England, to his Correspondent in America.

—"If Bishops should be sent to America, they can have no Kind of Power to enforce the Payment of Tithes. The original of this Payment in our Country arose, not from the Power of Churchmen, for they never had nor could have, nor attempted to have, the Power of disposing of other Men's Property; nor did it arise even from the Laws of the Land, but from the voluntary Donation of our ancient Kings long before the Conquest; when they held all the Lands of England in Domain, and could dispose of them, or any Part in what Manner they pleased. When the Kings gave several of their Manors and Estates to their Lords and others, they gave with them the Incumbrance of paying Tithes; and all the Laws that have been since made relative to this Matter, do not convey to the Church a Right to the Tithes, but only enforce the Payment of that, which was before due to it by the Donation of ancient Proprietors: So that the Apprehension that Men's private Property will be invaded by the settling of Bishops in America, is absolutely groundless; and there can be no Pretence for Bishops to require the Payment of Tithes in your Country, because probably there are none that have been given to the Church by legal Proprietors; if there are any such, they may as well be demanded without Bishops as with them."

NEWPORT, (Rhode-Island) SEPTEMBER 13.

The Anniversary Commencement of Rhode-Island College was celebrated on Wednesday the 4th Inst.—At ten o'Clock, A.M. the Procession was made in the usual Manner, from the College-Hall to the Rev. Mr. Snow's Meeting-House. The Business of the Day was begun with a Prayer suitable to the Occasion, by the President.—An elegant Salutatory Latin Oration was then pronounced by Mr. Samuel Ward, which justly procured him the Applause of the learned Part of the Assembly: After judiciously pointing out the various Causes both of the Rise and Fall of Empire, he made a pathetic Application to America, and concluded with the customary Salutations.—An English Dialogue, delivered with great Propriety, by Messrs. Arnold and Brown, containing some very just and pertinent Reflections on the Necessity of perpetuating the Union betwixt Great-Britain and her Colonies, was the next Entertainment.—And an intermediate Oration, pronounced with much Spirit by Mr. Ustick, on the Advantages of Peace, which he observed are greater to a powerful Nation, than even a successful War, concluded the Exercises of the Forenoon.

"In the Afternoon was ligated, syllophically, this Thesis in Latin, "Jussitia punitiva Delicti Attributum." Mr. Arnold was the Respondent, and Messrs. Brown, Coffit, Farnham, and Ustick, the Opponents.—The principal Arguments on both Sides of this interesting Dispute were judiciously managed. After which Mr. Ward vindicated human Literature from the false Aspersions of those by whom it hath been calumniated, as having a Tendency to vitiate the Morals of Mankind, and disserve the Interest of Religion; whose Arguments on that Subject were retorted, with much Ingenuity and farcassical Wit, by Mr. Coffit; both of whose Observations were accurately examined by Mr. Farnham, who spoke on the Subject with Precision, and demonstrated the great Advantages derived to the Cause of Religion and Virtue, from a suitable Education in the liberal Arts and Sciences.—

"The following young Gentlemen were admitted to the Degree of A. B. Thomas Arnold, Micah Brown, Ranna Coffit, Benjamin Farnham, Thomas Ustick, and Samuel Ward.

"Mr. Daniel Hitchcock, of Yale-College, received the Degree of A. M.

"The honorary Degree of A. M. was conferred on the Rev. Francis Pelotte and William Nelson.

"A concise, pertinent Charge was then delivered to the Graduates, by the President; in which, besides many useful Instructions and Cautions, he remarked that this Institution, though liberal and catholic in its Foundation and Government, despiing the contracted Views of a Party, aiming at the Good of Mankind in general, and always studious to maintain a good Agreement and Harmony with others of the like Nature, had not been so happy as to pass altogether without Censure; and that not only from the ignorant and pedantic, but even from some of those whose Friendship it has sought, and would highly esteem, could it consistently be obtained.—He concluded by requesting their Friendship and kind Offices to that Seminary of Learning in which they had received their Education; and with great Energy exhorted them, that if they could not, by their joint Testimony of the generous, free and impartial Manner, in which they had been treated in the Course of their Studies, silence the unreasonable Clamours of Ignorance and Enmity, to give the World the same Kind of Proof of the Usefulness of the Institution, which some of its first Sons now do, who fill public Stations with Honour to themselves, and Advantage to Mankind.

"A Valedictory Oration, on the Antiquity and Usefulness of Civil Law, was pronounced by Mr. Arnold, who, in a very agreeable Manner, and with great Strength of Argument, shewed, that to render a State prosperous and happy, it was necessary it should be governed by Laws founded upon mutual Compact.

"The President concluded the Exercises with Prayer. The whole Solemnity was conducted with a Decency and Decorum that did Honour to the Institution, and gave great Satisfaction to a polite and crowded Audience.

"In the Evening a Sermon was preached by the Rev. Mr. Gann, from Col. i. 28. to the general Acceptance of a numerous Assembly.

"On the following Day the Corporation met, and, among other Things, ordered their Thanks to be given to the Committees for erecting the College Edifice, which will be fitted for the Reception of Students this Fall, as also the Library and Apparatus Rooms, for Books, &c.

"The Rev. Mr. Brist, of Newport, and Joseph Gallaway, Esq; Speaker of the General Assembly in Pennsylvania, were chosen into the Fellowship, and Mr. Simon Page, of Newport, was elected a Trustee."

On Wednesday the 21st of August, was held the first Commencement at Dartmouth College, in the Province of New-Hampshire, which was attended by Governor Wentworth, with many of the Council, a respectable Body of the Clergy, and a Concourse of other Persons beyond all Expectation. The following Gentlemen, Messrs. John Wheelock and Samuel Gray, Independent Students, and Messrs. Levi Fritze and Sylvanus Ripley, educated for Missionaries among the remote Indians, Candidates for the first Degree, performed the Exercises of the Day, under the Conduct of the Rev. President Wheelock, to the entire Approbation of the honourable Trustees present, and obtained the Admiration and Applause of a crowded Audience. The Exercises consisted of an elegant English Oration upon the Virtues, succeeded by an Anthem; a Philosophical Oration in Latin; a Sylogistic Disputation; Valedictory Oration in Latin, followed by an Anthem, composed and set to Music by the young Gentlemen, Candidates for a Degree.

in St. Stephen's Parish, in the Night of Wednesday the 21st Instant, the following NEGROES, viz. A Negro Man named SAUL or SOLOMON, but commonly called SAUL; and a Wench, named CHARLOTTE, with a Male Child at her Breast, about eight months old. SAUL is a tall, likely black Fellow, with a large Beard, speaks very proper English, and is sensible, about 25 or 30 Years of Age, and a Cooper by Trade. CHARLOTTE, his Wife, is a likely sensible Wench, not above 19 or 20 Years of Age, of a yellowish Complexion, with a Scar on her Forehead, but always been brought up in the House, and is an extraordinary Seamstress. They were both lately clothed with Oxenbrugs, and bought some time last Winter by Mr. John Edwards, at Mr. Henry's Up-the-Path, at the Sale of the late Captain North's Estate, and purchased from Mr. Edwards by the Subscriber. They took with them, a small mouse coloured Horse, branded with Capt. North's Brand, with Saddle, Bridle, and all the Effects they had, it is supposed, with an Intent never to return to their Owner. They were pursued the next Morning, and tracked several Miles, making towards the Southward, where it is imagined they are gone; and, as they have Friends and Relations about Ponpon, it is likely they will be harboured there.

Whoever will apprehend the said Run-Aways, and deliver them, or either of them, to the Warden of the Work-House, or to the Subscriber in Charles-Town, shall receive for SAUL TEN POUNDS, and for the Wench and Child TEN POUNDS, or TWENTY POUNDS for the three, and all reasonable Charges.

Upwards of 100 acres of the said swamp is already cleared, and may, with very little labour, have water let on and off occasionally, in the driest seasons, and at the same time, be secure from the highest inundations.

Also, a TRACT of LAND on Combes River, containing about 200 acres, most commodiously situated, being bluff on the said river, which is fresh water, and within sight of the river, commonly called Bulls, which is salt, and abounds with fish and excellent oysters, which are easily come at, by means of a short canal cut through the marsh from river to river.
